

Manage Your Pharmacy Benefit on Your Smartphone!

Now, as members you have even more ways to manage your prescription drug benefit — on your Smartphone!

At the click of a button, you can easily take advantage of handy pharmacy tools on the go, just like you've always done from home!

You can find these smart Pharmacy tools right on your health plan app! You can download the app by simply visiting Google Play (Android) or the Apple Store (iOS) and start using these great new tools right now!

The tools include:

- Locate a pharmacy
- Price a medication
- Switch from retail to home delivery
- Order a refill
- Check order status
- And more!

To get started, simply login [here](#) and choose the **Benefits** button, then select Pharmacy. Under Pharmacy Benefits, select Benefit Highlights, Manage Prescriptions and "Go Mobile". It's so simple!

The first time you choose that button, you will be prompted to download the companion Express Scripts app, which powers these terrific pharmacy tools! You can then quickly and conveniently use your health plan app to manage both your medical and pharmacy benefit information in one place, wherever and whenever you like! It's that easy and one more way you can manage your prescription drug benefit in the ways you choose!

The above information is brought to you via Anthem Blue Cross and Blue Shield.
