

Specialty pharmacy

If you have a long-term health condition that needs to be treated with complex drugs, our specialty pharmacy is here for you. You'll get the medicine you need and support to manage your condition.

What is a specialty pharmacy?

A specialty pharmacy provides medicine for people with long-term health conditions. Specialty drugs come in different forms like pills or liquids. And some need to be injected, infused or inhaled. These drugs often need special storage and handling and may be given to you by a doctor or nurse.

The specialty pharmacy is for people with conditions that include:

- Asthma
- Bleeding disorders
- Cancer
- Crohn's disease
- Cystic fibrosis
- Growth hormone deficiency
- Hepatitis
- HIV/AIDS
- Iron overload
- Living with a transplant
- Multiple sclerosis
- Psoriasis
- Pulmonary arterial hypertension
- Rheumatoid arthritis
- Respiratory syncytial virus (RSV)

Your specialty pharmacy team.

You don't have to manage your health condition alone. Our team of experts is here to help you get the best results from your treatments.

- Pharmacists can explain your condition, how your drugs work and possible side effects. They can also answer urgent drug questions after hours.
- Nurses help you stay on track with your medicine. They make sure you're taking it just how the doctor prescribes. They can also help you deal with your side effects.
- Plus, the pharmacy has a team that can answer questions about insurance, paying for your medicine, refilling drugs and much more.

Getting started with the specialty pharmacy.

Our specialty pharmacy is CuraScript, which is part of Express Scripts. Express Scripts is the company that processes drugs for your health plan.

A note about your pharmacy information on the web:

Express Scripts is the company that manages your drug plan. The first time you're sent to the Express Scripts website, you'll go through a brief registration. The purpose is to set your preferences for email and privacy. You'll do this only once.

Please do not go directly to the Express Scripts website. The only way to make sure you're viewing your pharmacy information correctly is by logging in to anthem.com first.

Your plan may require you to use CuraScript. Other plans let you choose from a list of specialty pharmacies, including CuraScript. You can visit anthem.com or call the phone number on your member ID card to be sure.

After getting a prescription from your doctor, place your first order with CuraScript by phone or fax.

By phone: Call 800-870-6419, Monday through Friday, 8 a.m. to 10 p.m., or Saturday, 9 a.m. to 1 p.m., Eastern time.

By fax: Ask your doctor to fax your prescription and a copy of your member ID card to 800-824-2642. (Faxes must come from your doctor's office. Please don't fax from your home or office.)

Ordering refills.

Once you're ready to refill your medicine, you can place your order online or on the phone.

Online: Visit anthem.com.

- Log in and click "Refill a Prescription." You will be sent to the Express Scripts website.
- Choose the drugs you want to refill and click "Add Refills to Cart."
- Review the order, shipping method, payment and other details. Make changes if needed.
- Click "Place My Order."

By phone: Have your member ID card and prescription number ready. Call 800-870-6419 and choose "Place a Refill Order" from the menu. Or press zero any time to speak with someone. If you are speech or hearing impaired, call 800-221-6915. Follow the prompts to place your order.

Exclusive specialty drug list

Blood Cell Deficiency

*You may be able to get a 90-day supply of HIV and transplant drugs if you live in Indiana, Kentucky, Missouri, Ohio or Wisconsin, depending on your pharmacy coverage. All other drugs on this list will be filled only up to a 30-day supply.

Generic drugs are lower case and brand name drugs are upper case.

This list may change without notice, which may affect your benefit coverage. To be sure the specialty drug is covered, call the specialty pharmacy at 800-870-6419, Monday-Friday 8 a.m.-10 p.m., Eastern time.
